Skill Card [Activate Now](#)

Step 3: Click on the **Skill Wallet** option you will see a card representing the specific technology track you are enrolled in.

Step 4: Click on **Access Resources** on your track card (You are enrolled one technology are able to see one card here)

Step 5: Once inside your track, you will see five main tabs. Here is what they contain:

1. **Instructions:** View the overall program guidelines.
2. **Learning Journey:** Access day-wise learning content, live session links, and recorded videos.
3. **Courses:** View and complete your mandatory self-paced learning modules.
4. **Group Projects:** Access and manage your project assignments (this is where you will submit your work).
5. **Certificate:** Download your official certificate once it has been issued.

Step 6: Click on the **Group Projects** tab. Locate the project that has been assigned to you and click on its **Access Resources** button.

Step 7: Inside the project view, look at the top right corner to find these four management tools:

1. **Team:** View your teammates and see assigned project milestones.
2. **Overview:** View the project description and the final submission areas.
3. **Workspace:** Track project status, module completion, and overall progress percentages.
4. **Kanban:** Manage your task cards by moving them through stages: **To-Do** → **In Progress** → **To Be Reviewed**.

*Note: Once you finish a milestone, move its card to **To Be Reviewed** so our team can evaluate it.*

Team

- Click "Invite Member", and enter the email address to invite a team member.
- Team members can only be removed before they accept the invitation. Once accepted, they become permanent members of the team.
- If an invitation is declined, re-invite by entering the email again.
- You can start the project yourself by confirming "Start Group Project" without adding any team members.

Note: Once you start the group project, you won't be able to add any more team members. Make sure your team is complete before you begin.

Pre-requisites

Complexity: Easy Duration: 1h 0m Progress: 50% Stories: 1

Project workflow

EPIC 1: Project Planning & Architecture Setup

EPIC 2: Frontend & UI Development

EPIC 3: Core Financial Feature Development

EPIC 4: Client Logic & Integration

EPIC 5: Testing & Deployment

Step 9: Click on the **Workspace** tab Ensure that your **GitHub link** and **Demo Video link** are also properly updated or reflected here.

The screenshot shows the Skill Wallet interface. On the left is a blue sidebar with navigation links: Dashboard, Skill Bank, Skill Wallet (selected), Skill Card, and Skill Credits. The main content area has a breadcrumb trail: Dashboard > Skillwallet > Program > Vibe coding > Group-projects > FinWise AI Intelligent Loan EL... At the top right, it shows 0 AI Token, 300 Credits, and a GM profile icon. Below the breadcrumb, there are tabs: Team, Overview, **Workspace** (highlighted with a red box), and Kanban. The main content is titled 'FinWise AI: Intelligent Loan Eligibility, Credit Analysis & Financial Advisory Platform'. It has three sections: 'Pre-requisites' (with tags: Epic, Complexity: Easy, Duration: 1h 0m), 'Description' (text: Pre-requisites are the essential tools, software, or knowledge required before starting a project. They ensure the project can be set up, run, and developed smoothly without issues.), and 'Resources' (text: No resources available). On the right, there is a 'Project Progress' section with a 20% completion bar and buttons for 'Add Demo Link' and 'Add GitHub Link'. Below this, there is a 'Pre-requisites' section with a 50% completion bar. The 'Project workflow' section lists five EPICs with their respective completion percentages: EPIC 1: Project Planning & Architecture Setup (25%), EPIC 2: Frontend & UI Development (25%), EPIC 3: Core Financial Feature Development (16%), EPIC 4: Client Logic & Integration (0%), and EPIC 5: Testing & Deployment (0%).

Step 10: Click on the **Add GitHub Link** option Paste your complete GitHub repository URL into the text box and Click **Update GitHub Link** to save.

The screenshot shows the Skill Wallet interface with the 'Workspace' tab selected. A modal dialog box titled 'Update GitHub Link' is open in the center. The dialog contains the text: 'Enter your new GitHub repository URL here. Click save when you're done.' Below this text is a text input field with the placeholder 'GitHub Repository URL' and the value 'https://github.com/username/repo'. At the bottom of the dialog is a blue button labeled 'Update GitHub Link'. The background of the interface is dimmed, showing the same 'Project Progress' section as in the previous screenshot, with the 'Add GitHub Link' button highlighted by a red box.

Note : **Success!** Once these steps are complete, your project links are saved, and your project has been successfully submitted for review.
